

COMPLETE GAS  
FIRE RANGE

PRICE LIST | APRIL 2022

Charlton & Jenrick<sup>LTD</sup>

EST. 1986

## GAS FIRES FROM CHARLTON & JENRICK

*For over 35 years, Charlton & Jenrick have been at the forefront of improving the technology and efficiency of 'living flame' gas fires.*

For homes with or without a chimney, for a traditional or modern feel, we have a range of super-efficient gas fires and stoves that will create the perfect centrepiece for your living room.

### Tailored to meet your needs

You can tailor your fire to your exact taste and needs, choosing from our range of different trims, fascias and liner options. You will see that with Charlton & Jenrick you're spoilt for choice.

## HYDROGEN BLEND READY

As part of the continued Charlton and Jenrick Ltd investment in the latest glass front gas fire technologies, we have undertaken in-house testing to allow a selection of our gas range to be 'Hydrogen mix ready'.

This can be achieved without any future upgrades to the appliance allow your new purchase to work on the new 'Green Gas' of the future. This technology is the subject of a test by HyDeploy, who have been running gas appliances with a 20% hydrogen blend in several projects.

Blending up to 20% hydrogen into the gas grid with 80% existing natural gas could save up to 6 million tonnes of carbon dioxide emissions every year. This is an exciting development for the gas fire industry and shows that gas is an eco-friendly option for well into the future, helping Britain cut its carbon emissions and work towards the Government's Net Zero target without affecting how gas appliances are used.

# CONTENTS

## OPEN FLAME FIRES

---

- 4 Paragon 2000 Plus range
- 4 Paragon Slimline 3 Range
- 4 Paragon One Evolution
- 5 Trims and Fascias for the Paragon Open Flame Fire Ranges
- 6 Paragon Packages for Open Flame Fires

## GLASS FRONTED FIRES

---
